

Homework Cover Sheet

Assignment #: Homework 4: Image Segmentation using K-means Algorithm

Your name: Edith Flores

- **Please acknowledge below all significant forms of aid you give or receive**
 - Yes, even the professor! Yes, even the tutors! No, not the course texts.
 - It is best to fill this sheet out as you go so you don't forget
- If you are found to have given or received inappropriate aid...
 - Cited: minor grade adjustment, discussion clarifying expectations
 - Uncited: disciplinary action from the Office of the Dean of the College, final grade reduced, failing grade for repeat or egregious offenses.
 - Please see the syllabus for more details
- When this form is complete
 - Select File > Download as > Portable Document Format (PDF)
 - Include the downloaded file with your submission

I affirm that the below is an accurate description of significant aid I both gave and received on this assignment.

Edith Flores

Collaborators/Sources	Help Given/Received
Python Textbook	I used the Python text book to look up the syntax when using cImage.
My CS1 code	I looked at my old CS1 code to get the cImage.py file. I also looked at the syntax I used for cImage.

[illegible]
